Danial,

Additional changes to new web site:

Add new page:

I would like a new page added above HOME page, titled "ENVIRONMENTAL ALERTS" or just "ALERTS" with the following text (and I would like the listed documents somehow inserted in that statement; let me what what can be done if what I would like can not be done):

May 7, 2008: Dear Tribal Members, Several companies have filed a notice with the Federal Energy Regulatory Commission (FERC) to build a natural gas pipeline in the area of the Summit Lake Reservation. The width of digging by the estimated 500-700 person crews would be 150 to 250 feet wide depending on the terrain. The first notice to the Tribe on February 14, 2008 only gave a generalized map of the pipeline construction route but the April 7, 2008 notice clearly showed it would be south of Sheldon and north of the Reservation (Ruby Pipeline Project Notices to Tribe rec'd 02.14.08 and 04/07/08.pdf). On April 29, 2008, a more detailed map was found of the pipeline construction route (Newest map Ruby pipeline 042908.pdf). On May 2, 2008, the SLPT Environmental Coordinator filed a protest with FERC asking the public comment period be reopened given the lack of notice to the Summit Lake Tribe during a April 24, 2008, FERC led scoping meeting where the more detailed map was not disclosed to the Tribe. More posting on this issue will follow.
